

Plant Name	Scientific	Common	Family	Date reviewed 10/2022
<i>Artemisia versicolor</i> 'Sea Foam'		SEA FOAM sage	Asteraceae	
Propagation Method		Native to		
Cuttings				
Treatments (Suggested procedures)				
Semi-hardwood cuttings taken in late summer are easiest but softwood cuttings taken earlier will also root. Take 2-4" cuttings, strip lower 2/3 and stick into peat, perlite mixture.
