

# ROSE & GRASS BORDER

## Plant List:

- A. Ruby VooDoo rose
- B. UNDAUNTED® ruby muhly
- C. Korean feather reed grass
- D. WINDWALKER® big bluestem
- E. Redleaf rose

**Light:** All grow best in full sun

**Moisture:** Moderate to dry

**Culture:** Clay, loam or sandy soil

Grasses are an excellent accompaniment to roses and this border is no exception. This spectacular combination of grasses is beautiful in itself, but is stunning when combined with the bright pink blossoms of the rose bushes. The foliage of WINDWALKER® big bluestem starts out powdery blue then turns plum/purple in September and creates a wonderful foil alongside the burgundy foliage of Redleaf rose in either season. Add in low maintenance and this border is a must have for any landscape.
