

XERIC GARDEN BORDER

Plant List:

- A. VERMILION BLUFFS® Mexican sage
- B. Blue Jazz pinyon pine
- C. Standing Ovation little bluestem
- D. LITTLE TRUDY® catmint
- E. Red feathers
- F. Golden storksbill
- G. SILVER BLADE® evening primrose

Light: Full sun to partial shade

Moisture: Moderate to xeric

Culture: Clay, loam or sandy soil

(note: Golden storksbill and evening primrose prefer loam soil)

This combination of perennials, a native grass and small conifer provides wonderful texture in the landscape. Season-long color completes the combination for a stunning low-water garden. Pollinators such as bees, butterflies, hummingbirds and hawkmoths will be attracted to this garden, as well..
