

Plant Name	Scientific	Common	Family	Date Reviewed 03/24/20
Rosa x Ruby Voodoo		Ruby Voodoo Rose	<a href="#">Rosaceae</a>	
Propagation Method		Native to		
Softwood		Garden Origin		
Treatments (Suggested procedures)				
<p>Take soft wood cuttings 5 inches long with 4 leaves. Discard the tip, cut 1/4 inch below the bottom (distal) leaf and remove the leaf. Stick the cutting in a well drained rooting media, (we use 3 parts perlite mixed well with 1 part peat) and place under mist.</p>
